

All EuroComs engineers are trained to the highest standards and have an enviable reputation for quality access control installation and maintenance.

Why Access Control...

“Access control offers a secure, convenient, flexible and cost effective way of controlling who has access to your building and when that access is allowed.”

Fergus Ewing
UK Community Safety Minister

781,866 burglaries in the UK every year, averaging 1 every 40 seconds.

Home Office, Scottish Government & Police Service

57% of burglaries occur when someone is within the premises & 73% of burglars use doors and windows to enter.

Home Office, Scottish Government & Police Service

- ✳ Control Access
- ✳ Centralised Monitoring
- ✳ Protect Staff & Children
- ✳ Protect Assets
- ✳ No Need To Change Locks
- ✳ Ease of Administration
- ✳ Low Running Costs
- ✳ Door Automatically Lock
- ✳ Secure Internal Areas
- ✳ Secure External Areas
- ✳ Lower Insurance Costs
- ✳ Time Zones
- ✳ Safety During Power Cuts
- ✳ No Keys Misplaced
- ✳ Link to BMS Systems

All EuroComs engineers are trained to the highest standards and have an enviable reputation for quality access control installation and maintenance.

System Design...

“Access control offers a secure, convenient, flexible and cost effective way of controlling who has access to your building and when that access is allowed.”

EuroComs design all types of access and door entry systems from the leading market manufacturers.

Our in-house access design team use the latest manufacturer software to design internal and external entry systems, gate control, time zones and BMS and Fire Alarm integration.

We have the expertise to design systems from 1-1,000 entry points, whether the system be networked or stand-alone.

System design is crucial to the outcome of your system build. EuroComs are accredited Paxton, Videx, ACT and BPT Installers.

All EuroComs engineers are trained to the highest standards and have an enviable reputation for quality access control installation and maintenance.

Installation...

“Access control offers a secure, convenient, flexible and cost effective way of controlling who has access to your building and when that access is allowed.”

EuroComs security engineers have worked throughout Europe on some of the largest hotels, hospitals, supermarkets and airports.

Our engineers are manufacturer specific trained to the highest standards and are fully experienced and qualified to install your access system.

EuroComs are working towards ISO:9001 quality standards our clients and future clients can always be assured of a quality service incorporating technology with excellent service.

We also have security cleared engineers for the more security sensitive projects.

All EuroComs engineers are trained to the highest standards and have an enviable reputation for quality access control installation and maintenance.

Maintenance...

“Access control offers a secure, convenient, flexible and cost effective way of controlling who has access to your building and when that access is allowed.”

Home Office, Scottish Government & Police Service

The maintenance of any security system is crucial to the success of its prevention.

EuroComs maintain hundreds of entry systems throughout the UK, helping to avoid system problems. Our standard contract includes 4-hours response to 50% or more system failure and 8 hours response to all other call-outs.

We are flexible with our cover and can offer bespoke solutions to our clients; 24/7 helpline, 2-hours UK wide response and manned security, are add-ons to existing SLA's we have in place.

Routine checks are carried out quarterly to ensure our systems are running smoothly.

All EuroComs engineers are trained to the highest standards and have an enviable reputation for quality access control installation and maintenance.

Commissioning...

“Access control offers a secure, convenient, flexible and cost effective way of controlling who has access to your building and when that access is allowed.”

EuroComs security based engineers and in-house management teams commission our new installations independently with project sign-off. This ensures we perform thorough system checks on infrastructure, hardware, software and peripherals.

Each one of our projects is issued a job pack which contains project design and test documentation. In addition, warranty information and ‘as fitted’ drawings in CAD format.

Our installations include fully manufacturer backed warranty and one years Gold maintenance.

All EuroComs engineers are trained to the highest standards and have an enviable reputation for quality access control installation and maintenance.

Training...

It is hard to believe that recent studies have shown that almost 25% end-users of access control systems have not received the relevant training.

EuroComs management will not sign-off any project until we are confident our clients have received the training they require. We ensure that both technical & non-technical staff receive the training and support they require.

Our manufacturers will be more than willing to come to your site to perform system checks and training if required.

We also offer 24/7 contact details for response and operation instructions.

All EuroComs engineers are trained to the highest standards and have an enviable reputation for quality access control installation and maintenance.

Our Systems...

EuroComs offer a range of access solutions and manufacturers to allow our design teams to offer bespoke solutions.

- ⚙ Internal & External Solutions
- ⚙ Door, Shutters, Barriers & Gate Solutions
- ⚙ Magnetic Locks, Yale-Style & Motor Locks
- ⚙ Key Fobs, Coded & Swipe Card Solutions
- ⚙ Eye Recognition & Fingerprint Biometrics
- ⚙ Networked & Stand-Alone Systems
- ⚙ External & Internal Monitoring
- ⚙ Vandal Proof Entry Panels
- ⚙ Integrated Camera Systems
- ⚙ Integrated to BMS System
- ⚙ Wireless & Wired Solutions

All EuroComs engineers are trained to the highest standards and have an enviable reputation for quality access control installation and maintenance.

Manufacturers...

EuroComs offer the warranty on our access systems;

- ⚙ 25 Years Warranty on Cabling Infrastructure
- ⚙ 25 Years Warranty on Hardware Installation
- ⚙ 1 Year Manufacturer Backed Hardware Warranty
- ⚙ Extended Warranties Available

We can offer this warranty because of the quality of materials and experience and training of our engineers. All our installation work is tested thoroughly before we leave the site

All EuroComs engineers are trained to the highest standards and have an enviable reputation for quality access control installation and maintenance.

Case Study...

Rotherham Council, South Yorkshire, UK

The council put out a tender in 2011 for the installation and maintenance of a fully networked and centrally managed access control system.

EuroComs were awarded the contract based on our proposal to use the Paxton Net2 System. Net2 is an advanced PC based access control solution which can managed hundreds of doors for up to 10,000 users.

Net2 is one of the most economical access control systems on the market used for three main requirements; Central control, Flexible access permissions and Reporting.

All EuroComs engineers are trained to the highest standards and have an enviable reputation for quality access control installation and maintenance.

Home Office, Scottish Government & Police Service

Rotherham Council, South Yorkshire, UK

In total EuroComs installed 39 door controllers, with the system integrated to the School fire alarm system and building management system (BMS). When the fire alarm is activated, all the door automatically releases and BMS system shuts down heating, cooling and lighting when the last person leaves site.

EuroComs trained the ICT staff how to use the system and manage the user fobs, codes and ID passes. Overall the installation was a success and EuroComs to continue to maintain the system on a 3 year contract.
