

Eurocoms Print Solutions

A close-up photograph of a computer keyboard. The main focus is a key in the bottom right corner that has been modified. Instead of a standard character, it features a dark blue icon of a printer with a stack of paper emerging from it. Below the icon, the word "Print" is written in a dark blue, sans-serif font. The rest of the keyboard is visible in the background, showing other keys like "Delete", "Backspace", and punctuation marks.

Why is there a requirement for MPS?

- Print Cost's can account for **3%** of annual revenues
- Typically up to **40%** of calls to IT service desks are print related
- The average worker consumes **10,000** sheets of paper per year.
- Email use has increased paper consumption by up to **40 %**.
- **Paper and Ink** consumption contributes to your carbon footprint.
- Document lifecycle can be up to **15%** of turnover (Gartner)
- **90%** of companies do not know their Total Cost of Ownership
- Paper represents a **compliance** and **security risk**
- You should achieve a **20%** reduction in Carbon Footprint across the lifecycle with a **Managed Print Solution**

Why is there a requirement for MPS?

Eurocoms have partners up with one of the largest supplier of printer supplies in the UK to bring you a host of printer vendors and manufacturers that we can design, supply and service.

Our partnership with the major vendors as well as ability to take over legacy equipment means that Eurocoms can offer a true cost saving for our clients rather than a simple rip and replace service.
